

# Think Outside the Box!

Each puzzle results in a code word or words which must be entered to stop the clock.

Each shape below that folds into a cube has one identical twin with corresponding designs on its sides. The designs are on the outside of the cube when folded. For experts: Can you complete some or all of this puzzle in your mind?

1. Match all of the twins and remove others.
2. Take one of each pair of twin cubes and line them up in a row.
  - (a) As you look from behind, all arrows are compass consistent with the tops.
  - (b) As you gaze upon the front, all roads lead to Rome.
  - (c) Look down from above and see what you cannot see.
